WARRANTY-PLEASE READ BEFORE PURCHASING

Hard drives have a three year warranty, SSDs have a two year warranty, enclosures have a one year warranty

- All hard drives, and removable media drives are covered by at least a 1 year **REPLACEMENT WARRANTY**. The warranty does not cover any software or data stored on the media - in the event of a hardware failure this information is usually lost and is irrecoverable.
- It is accepted practice that valuable information is **backed up** - we strongly recommend that all PC users take steps to protect their information and perform regular backups. If you would like information on backup procedures and equipment, please ask our staff.
